

BONELLI CONTEMPORARY

Bonelli Contemporary is an Italian gallery opening in Los Angeles. The space, located in the beautiful and lively area of Chinatown will house shows of Italian and international artists.

This new location is the first gallery of Los Angeles under the Italian sign. It is not meant to be a challenge to the American market, but a way to contribute to the already existing artistic scene of the city and to the plurality of the contemporary art market.

Our first target is to support young artists, both in Italy (such as Fulvio Di Piazza, Nicola Verlato, Michele Lombardelli or Matteo Bergamasco), and international artists (Liset Castillo or Kim Dorland)

Our goals, pursued through the participation to international fairs as well as the publication of catalogues, will focus on the work of the young Italian and international artists, creating an open dialogue on contemporary art.
